# RETRACTABLE AWNINGS

Providing shade for the ultimate outdoor comfort...

Our iconic range of awnings are manufactured with the UK from a manufacturer that boasts over 100 years' experience with the design and build of awnings. These originated from traditional wooden box awnings to modern cassette awnings, with both the option of manual or automated retraction. We offer a selection of 3 cassettes dependant on your size requirement using a premium finish aluminium for a quality finish, structural integrity and longevity.

- Minimum 2m width
- Minimum 1.5m projection
- Maximum 6m width
- Maximum 4m projection

- Manual or remote retraction
- Standard 15 degree pitch
- 120 Fabric colours available
- 2 Standard frame colours

## FABRICS

We offer a selection of prestigious fabrics available in over 120 colours, from one complete colour to a patterned finish. This enables you to customise the awning in keeping with its placement and surroundings. These fabrics are attached internally to the cassette and retract seamlessly by use of aluminium folding arms, creating shade shelter or a combination of both, to its set location.

120 Fabric options available

Manual or remote operated retraction

Corrosion resistant, powder coated, extrude aluminium hardware with stainless steel components

Standard frame colours  
White RAL9016  
Grey DB703

Cassette frame minimum 195mmx150mm to maximum 177mmx250mm

## THE UNIQUE TOUCH...

Our range of awnings come with a variety of additional extras, including front valances to increase the shade coverage. We also offer the integration of LED Lighting, inserted within the folding arms creating an ambient glow from under the awning.

# ALUMINIUM CANOPIES

Creating functional outdoor space  
no matter what the weather...

Our frames are manufactured using high-grade T6 aluminium and finished in either matt anthracite grey or semi-gloss white. Our standard frame measures 110mmx110mm with the option if increasing to a heavy duty 125mmx125mm dependant in size and application. These feature an integrated guttering system with downpipes enclosed within the leg posts. Our range of aluminium canopies are offered in lean-to form or completely freestanding, creating additional functional space.

- Minimum 3m width
- Minimum 2m projection
- Maximum 20m width
- Maximum 6m projection

- Glass or Polycarbonate Roof
- Standard 8 degree pitch
- Optional side walls
- 2 Standard frame colours

## FIXED ROOF COVER

Our fixed roof coverage is comprised using 8.8mm toughened glass with the option of exchanging to a 16mm polycarbonate. These are pitched at a minimum of 8 degrees to manage rainwater, directing it into the integral guttering system. Each roof is manufactured into panel sections which vary in width and length dependant on the structure's overall dimensions.

Integrated gutter system with downpipes

Standard leg post  
110mmx110mm  
Heavy Duty  
125mmx125mm

Standard frame colours  
White RAL 9016  
Grey RAL 7016

Made in the UK and are accredited to BS EN1090 using the best 6063-T6 grade aluminium

Optional glass or polycarbonate fixed walls and/or sliding glass

## THE UNIQUE TOUCH...

Our aluminium structures come with a host of customisable options including additional leg posts to create a freestanding structure, side wall enclosure in either fixed or sliding glass panels, fixed polycarbonate panels or aluminium inserts to personalise the structure to your specific requirement.

# RETRACTABLE CANOPIES

Chic Italian design that is built for  
British weather...

Our range of retractable canopies offer the unique touch of chic Italian design, that suits the British weather. These structures are manufactured in Italy comprising of high-grade T6 aluminium with a choice if either 90mmx90mm or 120mmx120mm dependant of application. We offer a choice of 4 standard contemporary frame colours with the option of bespoke RAL colour available at an additional cost. Each structure is made specific to your requirement in either freestanding or lean-to form.

- Minimum 3m width
- Minimum 3m projection
- Maximum 6m width
- Maximum 5m projection

- PVC Retractable Fabric Roof
- 4 Standard frame colours
- 4 Standard roof colours
- Manually retracted

## RETRACTABLE FABRIC

Our retractable canopies are topped with a waterproof soltis PVC fabric, with a choice of 5 standard colours available, or your desired RAL colour, available at an additional cost. The fabric roof is attached to the frame by an internal rail, retracting manually for speed and convenience. When closed, the soltis PVC fabric dips in periodic sections to allow for the capture and dispersal of rainwater to each side of the frame, offering shade and shelter throughout the year.

Optional PVC side walls or fabric curtains

Standard leg post  
90mmx90mm  
Heavy Duty  
120mmx120mm

4 Standard frame colours, smooth dark-grey, matt white, dove-grey or dark-brown

Manufactured in Italy using high grade T6 grade aluminium

4 Soltis fabric options, white, champagne, grey or dove grey

## THE UNIQUE TOUCH...

We offer a host of customisable extras including all round curtains, adding to the aesthetics of the canopy whilst increasing the available shade. We also offer fixed fabric walling available in a variety of colours to match the finish of the structure and retractable fabric roof.

# GAZEBO CANOPIES

The traditional shade and shelter solution with a modern twist...

These offer all weather protection without the permanency of a heavy-duty structure, making them the ideal choice for covering a hot tub or outdoor dining set. Each structure is constructed using a lightweight yet robust T6 aluminium frame with leg posts measuring 100mmx100mm to its tented roof. We offer a choice of 4 warming frame colours, with the option to have finished in a unique RAL colour, at an additional cost. The frame is attached to the ground using internal 3 bolt fixing plates, creating a firm anchored structure.

- Minimum 3m width
- Minimum 3m projection
- Maximum 6m width
- Maximum 5m projection

- PVC Tensioned Fabric Roof
- 5 Standard frame colours
- 4 Standard roof colours
- Optional gutter system

## TENSIONED FABRIC

The tented roof pays homage to the traditional gazebo style, with robust aluminium supports to add structural integrity and wind resistance. The structure is topped with a stretched PVC membrane which comes in a range of 4 colours, mimicking the frame colour or adding a contrast dependant on your taste. The overall height is determined on the length and width of the structure, this will be demonstrated within your quotation.

Optional PVC side walls or sliding glass

Standard leg post  
100mmx100mm  
entrance height  
2500mm

5 Standard frame colours, smooth dark-grey smooth white, matt white, dove-grey or dark-brown

Manufactured in Italy using high grade T6 grade aluminium

4 Soltis fabric options, white, champagne, grey or dove grey

## THE UNIQUE TOUCH...

We offer a variety of accessories to compliment your canopy, including sliding glass wall enclosures or transparent PVC walls, protecting you from the outside elements. Each structure is built bespoke to your requirements with the ability to incorporate a unique RAL to both the frame and roof, at an additional cost.

# LUXURY CANOPIES

Live the luxury outdoor life with the ultimate peace and tranquility...

Our luxury canopy range comprise of a 130mmx130mm high-grade T6 aluminium frame with an integral guttering system enclosed within the roof, collecting and filtering rainwater via downpipes hidden within the leg posts. The structure is fixed to the ground using internal bolt down footings which the leg posts fix onto, supporting the structure without being visible. To add to the luxury finish, we offer a choice of 4 stylish frame colours or a unique RAL colour at an additional cost.

- Minimum 3m width
- Minimum 3m projection
- Maximum 6m width
- Maximum 5m projection

- PVC Tensioned Fabric Roof
- 5 Standard frame colours
- 4 Standard roof colours
- Optional gutter system

## LUXURY FEATURES

The roof is constructed of 30mm sandwich board panels containing a mixture of aluminium, polyurethane and steel, creating optimum shelter and reducing exterior sound. The ceiling is hung below the roof using tensioned soltis fabric, available in a range of colours, incorporating the structures white glow lighting, adding to the internal ambiance of the canopy. Optional sound absorption panels can be utilised to reduce external acoustics for the ultimate peace and serenity.

Optional sliding glass walls and RGB LED lighting

Standard leg post 130mmx130mm entrance height 2400mm

4 Standard frame colours, smooth dark-grey, matt white, dove-grey or dark-brown

Manufactured in Italy using high grade T6 grade aluminium

30mm Sandwich panel roofing made from aluminium, polyurethane, steel.

## THE UNIQUE TOUCH...

Our luxury canopies boast a range of options including enclosing the structure with fixed or sliding glass panels, and increasing the ambiance by exchanging the white light glow to an integrated RGB LED multi-colour lighting system, with a spectrum of colours depending on your mood or desired setting.

# TIMBER CANOPIES

Robust timber structures with a hint of elegance...

Choosing the right timber structure can often prove difficult, taking into consideration structural integrity, longevity and required maintenance. With this in mind we've selected our chosen manufacturer to combine these factors, in line with our prestigious range to not compromise on our business's product line quality. These are erected using 94mmx94mm pressure treated wood, creating a robust frame that is protected from the elements.

- 2.4mx2.4m 4 post
- 3mx3m 4 post
- 3mx4m 5 post
- 3mx6m 7 post

- White PVC coated fabric
- 100% Waterproof/UV proof
- 5 year guarantee
- Optional fabric side walls

## FABRIC ROOF

The structures are topped with a tented premium fabric, which are fully UV and water resistant, creating the necessary weather protection, without the need of continued maintenance or regular resurfacing. Our standard roof is finished with a fixed white fabric, with the option to integrate clear fabric windows to allow for a natural flow of sunlight, from under the canopy.

Rafter corners extend 300mm

Standard white PVC coated fabric roof with another 40 colours available at an additional cost.

5 Standard frame colours, smooth dark-grey smooth white, matt white, dove-grey or dark-brown

Manufactured in UK using pressure treated timber and 304 grade stainless steel fixings

Optional PVC side walls available at an additional cost

## THE UNIQUE TOUCH...

We offer a range of accessories to customise your wooden canopy. These include fabric side walls, windowed side walls, windowed roof and side banisters. We are here to listen to your requirements and form a canopy that suits your desires and budget.

## WHY CHOOSE US

We have over 20-years experience specialising in a range of bespoke covered solutions. Our aim is to offer a 'one call, does it all' approach by creating functional outdoor space that is aesthetically pleasing, whilst ensuring the key elements of safety and longevity. We work closely with our clients to gather their specific requirements and tailor a package that enables one team to administer the job, from the ground upwards.

## SUPPLY ONLY

We offer a supply only service with clear and precise fitment instructions to guide you within the build process. We offer a fully comprehensive fitment service across the whole of the mainland UK, with pricing determined by your chosen product versus the work required, to ensure a compliant fitment, in line with the manufacturers wind and snow load specification.

## DELIVERY

Delivery is available free of charge within a 50-mile radius of our Huntingdon based head office. Additional charges will be applied outside this radius and outlined within your quotation. Should you opt for fitment, any additional delivery charged will be absorbed within the quotation.

## INSTALLATION

Our team of fitters have over 20 years combined experience within the shade and shelter industry from smaller domestic projects to large scale commercial projects. Fitment is administered via our trading company APPS Contracting and is calculated based on your chosen product versus the work required to administer the installation, in line with the manufacturer's requirements.

## HERE TO HELP

Our team of product specialist are here to guide you through the purchase process, ensuring you select the right product to meet your requirements. Should you have any questions, please contact us on 0330 053 4080 or email [enquiries@appscontracting.com](mailto:enquiries@appscontracting.com)

## SITE SURVEY

We recommend ALL purchasers take advantage of our experience by opting for, and arranging, a site survey with us. The information given by us and gained by you, enables you to purchase your desired product with utmost confidence, ensuring all aspects of the project are taken into consideration. Site survey is available at an additional cost of £175 inc VAT and recommended in advance of purchase.
